Great Activity Results From Resuming Work In Western Coal Mines

Lethbridge, Alta.—All lines of business exhibited signs of improvement in view of the coal strike settlement and a reopening of all mines this week.

Resumption of mining means the return of a million dollar fortnightly payroll to this city and towns of the Crown West Pass, operators having a six months' run, full shift, in sight. It is believed here that all danger of a coal famine on the prairies has been averted.

Miners to the number of about 100 employed on farm and in construction camps are hastening back to the mine camps to secure their old jobs, and Thos. Longworthy, Superintendent of the Government Labor Bureau, said that this was complicating an already acute labor shortage. Two hundred men are wanted here for the harvest, and in other fields, but none are available. Mr. Longworthy has sent out an urgent call for men, as orders are pouring in as harvest operations increase. A thousand men

will be needed in Southern Alberta to harvest this year's big crop.

Calgary.—Coal miners in District 18, during the recent strike, it is estimated, lost approximately \$2,500,000 in wages, while the members of the Western Canada Coal Operators' Association are faced with a loss of \$5,000,000. These figures are arrived at from evidence as to earnings given before the Knowles Conciliation Board. The strike has been in progress for practically five months, and was the second longest strike in the district, that of 1911 lasting three months.

From interviews with various operators, it is predicted that the mines will now be working to their utmost capacity, and it is anticipated that quite 3,000,000 tons of coal will be mined by the union colonies by December 31st. In addition to the association mines, there will be a very considerable output by the non-union companies, totalling probably about 400,000 tons a month.

EUROPE WILL REQUIRE MUCH WHEAT OWING TO DECLINE IN PRODUCTION

Washington.—Europe will have to import 54,000,000 bushels of wheat this year, up from 27,000,000 bushels more than last year, because of the decline in this year's production, the Commerce Department was advised by Alfred P. Dennis, its special representative in Berlin.

Exclusive of Russia this year's European wheat crop is estimated at 1,057,000,000 bushels. The total represents a decline of 156,000,000 bushels as compared with last year's phenomenal yield. This falling off in yield was accounted for by Mr. Dennis by a reduction of 1,500,000 acres in the wheat grown in Europe, by unfavorable growing conditions in the winter and early spring, and in the case of Germany and Austria, by the lack of fertilizers. The bulk of the decline, he added, was accounted for in the losses in three countries as follows:

France, 32,000,000 bushels; Italy, 32,000,000, and Germany 22,000,000. Production in Great Britain, he reported, showed a decline of nine per cent. Indicating a production in home grown milling wheat with last year's reduction. The only important gain in wheat production over last year, he declared, are in Roumania and Poland, where the yields are estimated at 12,700,000 bushels and 9,700,000 respectively.

Written in the life of that unfortunate land.

Lord Chancellor Birkenhead, Winston Churchill and Viscount Fitzalan, the British cabinet, the men prominent in British public life who have sent messages to Mr. Cosgrave, sympathizing with the Free State Government, were in its loss.

According to a Dublin dispatch to the Press Association, General Collins was to have been married this month.

His daring and his personal attractiveness, combined with his scholarly career and his reputation as a courageous fighter, as well as a prudent administrator, had secured him prominence and importance in the public eye, which was not shared by anything like the same extent by Griffith, who really was known to the British people, and whose retiring nature did not lend itself to public demonstration.

The British press is filled with tributes, personal sketches, and of the hair-breadth escapes of the commander-in-chief, together with tributes to his loyalty in carrying out the conditions of the treaty he signed with Great Britain. Prominent men at home and abroad, from the Prime Minister down, hastened to pay tributes of condolence and respect.

When Arthur Griffith died, was the subject of general comment that his life's work was virtually accomplished and his ideal achieved. With Michael Collins, his work was still to do, and perhaps the question most vexing the British public is what will follow upon the tragic disappearance of the two most important Irish Free State leaders. It is pointed out that of the five principle signers of the Anglo-Irish treaty, only one now remains in the Free State Government, Eamon J. Duggan. Of the others, Griffith and Collins are dead, George G. O'Duffy resigned because he disapproved of the draft of the constitution, while Michael Collins was dropped out of the Government.

Lloyd George issued the following statement for publication: "I am 'inexpressibly sad' at the news of the death of this gallant young Irishman. He fell a victim to a treacherous blow, delivered when he was engaged in endeavoring to restore order and liberty to his country, which was actually in need of it. His engaging personality won friendship even amongst those who met him as foes, and to all who met him the news of his death comes as a personal sorrow. I sincerely hope his death will be the last episode in this dark chapter of Irish history and that a new and brighter story will henceforth be written in the public conscience of the British people."

Quebec Hands Over Fines

Ottawa.—The Federal Government's claim against the province of Quebec arising out of the matter of fines and penalties imposed for infractions "under the Motor Vehicle Act in that province is to be settled on payment by the Quebec Government of \$200,000. In addition to the \$200,000 already turned over to the federal treasury, the claim arises from the payment to the Quebec Government of a large number of fines and penalties which ought to have been remitted to the Receiver-General for the Dominion.

To Assist Farmers. Saskatchewan Premier, Jas. Macleod, Plan to Prevent Glutting Wheat Market.

Regina, Sask.—A concrete suggestion outlining the method which might be adopted by the banks to assist the farmers to market their grain in such a manner as to prevent the glutting of the wheat market and a consequent depression in prices was telegraphed to Hon. W. L. MacKenzie King, by Premier Charles A. Dunnington.

Pointing out that the banks stand "at the base of the pyramid of credit," Mr. Dunnington suggested that "if they could devise means of extending portions of amounts due from them from all creditors to enable more normal liquidation," he feels sure that the effect would be felt through all classes of creditors "down to the farthest and probably prevent slaughter of wheat prices."

Mr. Dunnington points out that merchants as well as farmers stand credit to the banks in considerable sums of money, and his proposal involves a gradual liquidation of their loans indebtedness by all creditors, thus eliminating the necessity for merchants and other crowding the farm for cash payments early in the fall.

The telegram to Premier MacKenzie King, following the receipt by Mr. Dunnington, of a communication from Sir Frederick Williams-Taylor, representing the Canadian Bankers' Association, in which Sir Frederick announced that the banks will furnish "all proper banking accommodation to care for this year's crop," coupled with his personal assurance "that the banks will show the farmers every proper consideration, being deeply interested in the welfare of their customers and the prosperity of your province."

Business prospects are extremely bad; prices of produce are falling rapidly, and the export trade, upon which the farmers depend, is suffering acutely from the dislocation of traffic caused by the destruction of railways and bridges. Perishable products, such as butter, are spoiling, as there are no facilities for cold storage. Cattle raisers cannot return the output of their "creatures" must be culled.

Report Finding Ontario Gold. Sudbury.—What is considered to be one of the most sensational finds of gold ever made in the Sudbury district is on exhibition here. It is a piece of rock about 16 inches in length and eight inches thick, and pure gold is easily visible. It was found a few days ago, about 40 miles north of this town.

Chinese Declare Peace. Leader of South China Faction Says War is Ended.

Peking.—The republican cabinet announced that President Li Yuan-hong is willing to resign in favor of Sun Yat Sen, deposed head of the South China Government, provided Parliament approve such action. Sun Yat Sen, leader of the South China faction, announced that peace means again between the north and south and that "the war is ended."

Soviets May Expel Scientists. Revel, Estonia.—A dispatch received here from Moscow announces the arrest of 200 Russian scientists and writers during the last few days in Moscow, and of 30 in Petrograd. The dispatch says they are accused of being unfriendly to the Soviet Government, and that they will be expelled from Russia for various reasons.

Excursion Fares to East This Winter. Montreal.—The Canadian railways have decided to grant excursion fares from Alberta, Saskatchewan and Manitoba to all points in Eastern Canada during December and early January, to afford an opportunity to see the people in the prairie provinces to visit Eastern Canada.

Says Western Coal Strike Over

Strike of Alberta Miners Has Been Virtually Settled

Calgary.—The Alberta coal strike was practically settled, when the executive of the miners and the operators came to terms on an agreement which provides:

(1) Reduction of 15 per cent. of the old scale, which will be superceded as soon as 75 per cent. of the operators in United States soft coal fields sign an agreement.

(2) The agreement shall be in effect until March 31st.

The agreement must be submitted to a referendum of the men, but the officials say that a large majority of men are expected to back the agreement practically.

The miners expect to be back in the mines almost immediately.

The agreement practically admits that the men are going back without any reduction, because 75 per cent. of the operators across the line have either signed up or will be signed up by the end of the week.

The Cleveland agreement has been accepted.

Need to Improve Livestock

Hon. W. R. Motherwell Tenders Advice to Western Farmers

Winnipeg.—A great opportunity for improvement of farming in the west is being missed by not bettering the quality of the livestock, declares Hon. W. R. Motherwell, Minister of Agriculture.

"This is a serious drawback, and should be remedied," the Minister said. "Quality is what is needed in our livestock. The man who has a good beef animal for the block need never fear for the want of a market."

Mr. Motherwell said he found general condition in the west good both agriculturally and politically.

"The only question you hear being asked everywhere," he said, "is 'Who is to be made the goat for the failure of the wheat board, and the consequent loss to the farmers of the west?'"

"The experimental stations," he said, "have been operated almost ever since the war began, under the difficulties of cramped finances. This has been unavoidable, but, should the finances of the country permit, I will endeavor to have the government make financial provision for them more complete equipment."

Failed to Swim English Channel. Dover, England.—T. W. Burgess, the Englishman who swam the English Channel in 1911, again essayed the feat, starting from the French shore to cross to England. He had to give up in mid-channel, however.

Jean Mouton, a Frenchman, also started the swim but failed.

No Change In Irish Policy

Dublin.—The Irish Free State Government will be content on the Irish, marked out by Arthur Griffith and Michael Collins, whose views, freely expressed by their cabinet colleagues, anticipated the necessities of the 'whole situation. No new lines of policy are contemplated. Schemes for development await the definite establishment of the Free State, and all efforts of the Free State Government will be directed towards establishing the new state firmly in accordance with the terms of the treaty with Britain.

The adherence of William Cosgrave and Richard Mulcahy will be as strict as that of the two dead leaders.

Murder Plan In Egypt. One Englishman a Day Until National Day.

Alexandria, Egypt.—The recent attack in this city on Lieutenant Colonel Arthur Frederick Hamilton, who was killed, was the result of a series of murderous assaults upon British subjects in Egypt. It called for a plan to mind the threat of the nationalist, that an Englishman would be shot daily until the return of Sir Zaki Pasha, the Nationalist leader, who was deported by the British last December, and it is the latest addition to the extended chain of anti-British acts.

Lieutenant Colonel Pigeot, of the Royal Army Pay Corps, was shot and gravely wounded in Kad el-Fadi Street by unknown assailants while walking to his office. He was taken immediately into the house of a friend, and later removed to No. 1 Kad el-Fadi Street, and was given first aid, being afterwards transported to the Officers' Hospital at Alexandria, where one of the three bullets which had hit him was extracted.

Reports are entertained of his recovery, but this new crime has aroused great indignation among the European population in Egypt.

Gien Falloch & Vicinity

When the harvest days are over, dear, And the farmers stop selling their 20 sters, With the hay a failure and crop on the nose, It looks like putting the farmers on the nose. Poor old man, after working all year, Can't afford to buy a glass of beer, No cigars can be smoked, The hard work is but a joke, With 60 bush and better 20 a pound, How can he pay when the bill collector comes round?

He has to live, and his family have clothes, Before snow flies and the north wind blows.

A. N. Benjamin, Joe Brolick, Mr. Nelson, Frank Harling, E. J. Falchuck, Edwin Erickson and others drove cattle in to the market Monday, August 21.

Mr. Anderson, of Fertile Forest, is assisting Mr. Brolick with his work. Mr. and Mrs. Osterlund honored Ponoka fair with their presence.

Roland Kirkpatrick and Rena Clark were married in Edmonton recently. The young couple are staying with the bride's parents, Mr. and Mrs. Geo. Clark, for the present.

Sarina Black is cutting grain for Charles Dean.

Mrs. M. L. Macleod and daughter, Mrs. Jenkins and her children, of Edmonton, have been visiting in this vicinity.

A. Maki and sons are busy in the hay.

Truitt Cason has been breaking sod for Joe Brolick.

The Tobler went to Lethbridge recently to work in the harvest fields. Lyman Chapin, of Fertile Forest, purchased several much cows from A. N. Benjamin.

John Bidinger had the good fortune to strike a flaxing well to the east on his farm. No doubt he will be well pleased as he was in need of water.

We understand six sections of land has been sold around Falloch this summer to new settlers.

"SKY PILOT" ON SCREEN

RUNS TRUE TO BOOK

Probably because of the fact that he thoroughly knows the subject whereof he writes, Ralph Caplan's story, "The Sky Pilot," which King Value has directed as a motion picture, is one of the real gems among recent motion picture releases.

The story deals with a young man who is sent into the Canadian woods to spread the gospel among the cowboys, his trials and tribulations, his fights, his faith, his hope and his ultimate triumph.

WHERE ONE BLADE GREW

It is not always the best soil that yields the richest harvest. Much depends upon the man who cultivates the soil, and the measure of his success is the measure of his intelligent industry and thrift and ability to make the most of opportunity.

The successful farmer cultivates his money as carefully as he cultivates his land. He gets returns from his crops and he gets returns from his funds. This Bank in any part of the Dominion adds interest to the money saved by industrious farmers. Our nearest Branch is at your service.
